

No One Cares

Little girl red dress
pony tail and what a mess
Lifes so hard she don't know
run away and she's got no home
Think it's bad when people care
now she's got no one and no one cares

Chorus:
No one cares
No one cares

Take a road that leads you out
got a home but you wore it out
Know too much for one so young
it's all about you having fun
To think about anothers rare
you push away the ones who care

Chorus:
No one cares
No one cares

All alone you find yourself
a year from now and there's no one else
Everyone wants a part of you
they take and take until you're through
Your hopes and dreams are in the past
doing things don't tell don't ask

Chorus:
No One Cares
No One Cares
No One Cares
No One Cares

Outro:
No one cares, no one cares No one No one
No one cares, no one cares No on No one
No one cares, no one cares No one No one
No one cares, no one cares No one No one cares
